TOTAL Computer Needs	

Bureau of Laboratories Priority Equipment Needs

Laboratory Location	Item
Diagnostic Microbiology Lab Division - Enterics	Plate Reader
Infectious Disease Virology Lab Division - Viral Isolation/Serology	pH meter x2
Infectious Disease Virology Lab Division - Viral Isolation/Serology	gel casting equipment
Infectious Disease Virology Lab Division - Viral Isolation/Serology	humidifier
Infectious Disease Virology Lab Division - Molecular lab	Breather Easy PAPR System X 11
Infectious Disease Virology Lab Division - Molecular lab	Transport Cart
Infectious Disease Virology Lab Division - Viral Isolation/Serology	Liquid Nitrogen System X 11
Infectious Disease Virology Lab Division - Viral Isolation/Serology	Freezer Chart Recorders
Infectious Disease Virology Lab Division - Molecular lab	ABI 7500 Real Time PCR Detection System X 1 (reduced to only One 3/16/06)
Drug analysis Lab- Amherst	15- Storage cabinets/units
Drug analysis Lab- Boston	Gas chromatograph / Mass spectrometer
BioTerrorism Response Lab	C02 Incubator
BioTerrorism Response Lab	12 Channel Pipette X 2
Infectious Disease Virology Lab Division - Molecular lab	Pipette Set
	Security Locks
All BT/CT/Virology labs	
PFGE Unit - John Fontana	Bio-Rad PFGE Module
Infectious Disease Virology Lab Division - Molecular lab	undercounter refrigerator
Diagnostic Microbiology Lab Division - STD Lab	Biosafety Cabinet
Infectious Disease Virology Lab Division - Viral Isolation/Serology	filtering pump system
Drug analysis Lab- Amherst	Balance, analytical

DATE: 5/12/06

\$	10,000
\$	9,000
\$	32,000
	- Was \$30K - Now out 4/10/06
1,585	5/12/06- amount was \$30K, pending \$28,415 transfer to lab equipment
\$	6,000 Added - Not put in Redirect request
	22,900
\$	81,485

Estimated Cost	Justification
\$0	New item for reading results of Shiga toxin tests. Currently using borrowed equipment. 5/12/06- Defer until FY08 BT grant
\$1,800	Replacement of aging equipment needed for preparing testing reagents. 5/12/06- Change to 2 pH meters for \$1,800
\$0	Replacement for aging equipment (>20 years) needed for testing. 5/12/06- Delete from list
\$2,000	Replacement for aging equipment (>20 years) needed for testing. 5/12/06- New item for BSL3 lab environmental control (health and safety)
\$18,000	Personal Protective Breathing apparatus for working with infectious materials in the extraction operations. 5/12/06- Changed items to 11 and cost to \$18,000
\$200	For specimen transport between SLI laboratories
\$0	New back up system for specimen freezers in case of power failure -WAS \$38,500 Eliminated 4/10/06 - Next year's budget
\$0	New item to record temperature data for Liquid Nitrogen System - WAS \$24K Eliminated 4/10/06- Next year's budget
\$50,000	To replace outdated equipment which detects flu/other BT and other infectious diseases. Will reduce turn around time for results by half and will cut the use of expensive reagents, primers and probes. 5/12/06- Revised cost \$50,000
\$1,335	New item for storing equipment and files.
\$85,000	Replacement of aging equipment no longer supported by manufacturer needed for testing - Increased by \$10,328 was \$74,672
\$3,000	To replace broken equipment- Reduced by \$2K was \$5K
\$2,000	To replace one broken and one outdated pipette
\$0	Replacement for incomplete set for BSL3 laboratory. 5/12/06- Defer until FY08 BT grant
\$0	To install new door handles to accommodate new secured doors in stairwells - increased to 2 doors @ \$5k each 3/16/06. 5/12/06- Defer until FY08 BT grant
\$0	\$7k for repair. 5/12/06- Delete from list
\$1,000	New item to perform new tick-borne testing - Added back 3/16/06
\$0	Replacement for aging equipment (>20 years) needed for testing - Added back 3/16/06. 5/12/06- Delete from list
\$0	Replacement for aging equipment (>15 years) needed for specimen tracking - Added back 3/16/06. 5/12/06- Delete from list
\$2,300	Replacement of unrepairable equipment needed for testing - Added back 3/16/06

Drug analysis Lab- Amherst	Storage safe
Infectious Disease Virology Lab Division - Viral Isolation/Serology	conductivity meter
Infectious Disease Virology Lab Division - Rabies Lab	Refrigerator explosion proof /flammable storage
Drug analysis Lab- Amherst	Refrigerator explosion proof /flammable storage
Drug analysis Lab- Boston	Vortex mixer x2
Drug analysis Lab- Boston	Dryer, specimen testing
Drug analysis Lab- Boston	Gas chromatograph
Central Lab Services- Media Prep Unit	Refrigerator x2; Freezer x1

Laboratory Location	Item	Estimated Cost	Justification
Cuts per Sally			
Diagnostic Microbiology Lab Division - STD Lab	Biosafety Cabinet	\$10,000	Replacement for aging equipment (>20 years) needed for testing
Infectious Disease Virology Lab Division - Viral Isolation/Serology	autoblotter	\$10,000	New item to perform new Lyme testing.
Infectious Disease Virology Lab Division - Viral Isolation/Serology	filtering pump system	\$800	Replacement for aging equipment (>15 years) needed for specimen tracking
Infectious Disease Virology Lab Division - Viral Isolation/Serology	conductivity meter	\$800	Replacement of aging equipment needed for preparing testing reagents
Infectious Disease Virology Lab Division - Viral Isolation/Serology	vacumm pump	\$3,000	New item for serologic assay development
Drug analysis Lab- Jamaica Plain	Balance, top loading, high capacity	\$1,400	Replacement of unrepairable equipment needed for testing
Drug analysis Lab- Amherst	InfraRed Spectrophotometer with microscope	\$42,000	Replacement of aging equipment (>20 yrs) needed for testing
Drug analysis Lab- Amherst	Balance, analytical	\$2,300	Replacement of unrepairable equipment needed for testing
Drug analysis Lab- Amherst	Refrigerator explosion proof / flammable storage	\$1,150	Replacement of unrepairable equipment needed for solvent storage
Drug analysis Lab- Amherst	Storage safe	\$1,361	Replacement of unrepairable equipment needed for evidence/ specimen
Drug analysis Lab- Amherst	Storage safe	\$1,361	Replacement of unrepairable equipment needed for evidence/ specimen
Drug analysis Lab- Jamaica Plain	InfraRed Spectrophotometer with microscope	\$42,000	Replacement of aging equipment (>20 yrs) needed for testing

Changes made by Mariah and Leo			
Infectious Disease Virology Lab Division - HIV	barcode printer X 3	\$3,000	Replacement for aging equipment (>15 years) needed for specimen tracking
Infectious Disease Virology Lab Division - HIV	Plate Washer	\$5,000	New item for addition of new EIA assay
Infectious Disease Virology Lab Division - Viral Isolation/Serology	ultrapure water system	\$6,000	Replacement for aging equipment (>15 years) needed for specimen tracking
Infectious Disease Virology Lab Division - Viral Isolation/Serology	pH meter	\$800	Replacement of aging equipment needed for preparing testing reagents
Infectious Disease Virology Lab Division - HIV	freezer	\$13,000	Replacement of unrepairable equipment needed for testing

Further deductions by Sally			
Infectious Disease Virology Lab Division - Molecular lab	undercounter refrigerator	\$1,400	New item to perform new tick-borne testing.
Infectious Disease Virology Lab Division - Molecular lab	incubator	\$900	New item to perform new tick-borne testing.
Drug analysis Lab- Jamaica Plain	Gas chromatograph	\$35,336	Replacement of aging equipment no longer supported by manufacturer needed for testing
Drug analysis Lab- Amherst	Gas chromatograph	\$35,336	Replacement of aging equipment no longer supported by manufacturer needed for testing

Removed from Equipment, put under supplies

Central Services - Media	Laboratory Supplies/reagents/media - supplies	\$15,000.00	Supplies for preparing media for BT and Virology laboratories
Stockroom	CD/Lab supplies	\$30,000.00	Supplies to support the copier machines and laboratories
